

mBox[®] Maintenance Box

Increase Safety. Reduce Maintenance Downtime. Fast ROI.

mBox[®] with retracted platform
(production position)

mBox[®] with extended platform
(maintenance position)

YOUR BENEFITS

- THE safety concept to minimize risk of injury
- User-friendly access for up to two persons
- Easier access for maintenance and cleaning
- Reliable platform and excellent working conditions
- Reduced maintenance downtime, costs and therefore really fast ROI

HF MIXING GROUP has identified two major hazard areas for mixer maintenance - **the feeding door** and **the drop door** area.

For safe maintenance actions in the mixer's drop door area **HF MIXING GROUP** has developed the **Maintenance Box mBox[®]** that is integrated in the mixer platform and stands for a high sophisticated solution that combines safety with user-friendliness and cost effectiveness.
